

Biography:

Dyad is a collaborative music project and label by Ben Gibson and Mark Asbrey (aka Fundamental Interaction), launched in 2014. Their first trilogy of EPs showcased a muscular yet tonal sound with tracks like From Another Place, Enclosed and Zou receiving strong support from a host of highly regarded DJs.

The duo expanded the label in 2015 launching Common Purpose Series to showcase music from like-minded artists and musical allies. In addition to this, they have recently joined the rosters of the respected labels Don't Be Afraid and Tsunami where they have continued to refine their sound displaying the ability to switch from uplifting big room cuts to brutal industrial destroyers.
